

Satellite Summit 2023

COVID Protocols/Social Contract

Required of All In-Person Attendees

PRIOR TO ARRIVING at the Satellite Summit:

Ill or Exposed: Do NOT attend the Satellite Summit in-person if you are currently testing positive for COVID, if you are feeling ill, or if you have had a suspected/confirmed COVID exposure within 5 days of arriving.

If you registered to attend in-person and cannot, we will adjust your registration to Virtual at any time **or** refund you in full if you notify us by Tuesday, September 26 (this is the last day for in-person refunds due to our catering deadlines).

Vaccination/Boosters: Highly encouraged. This remains the best way to prevent illness and slow the spread.

Self-Test: Highly encouraged as close to your arrival at the Satellite Summit as possible. Testing resources can be found at <https://www.covid.gov/tests> Allow 15 minutes for results.

Masks & Hand Sanitizer: Pack them. Use them as needed. **Free masks** are available; visit <https://www.cdc.gov/coronavirus/2019-ncov/your-health/free-masks.html>

Review the Latest Advice: CDC (<https://www.cdc.gov/coronavirus/2019-ncov/index.html>); WA State Dept. of Health (<https://doh.wa.gov/emergencies/covid-19>)

DURING the Satellite Summit:

Masks: Highly encouraged in close/crowded areas inside the meeting room (e.g. during small group discussions). Consider eating outside, weather permitting.

Distancing: Our seating plan will take social distancing into consideration as much as possible. Seating in the meeting room will be at rounds with **6** people per round.

Main Room: We will promote good **ventilation and air circulation** however possible. **Bring** an extra layer in case it feels chilly.

Respect Different Comfort Levels: Please respect your fellow Satellite Summitters' different comfort levels, COVID and otherwise. **Ask before** entering others' personal bubble (e.g. handshake, hug).

Go the Extra Mile: See "respect" above. We are so excited to be together in-person again. Let's stay Safe so that this trend can continue! Stay Safe, Don't Spread.
